

FOUR REASONS WHY CUSTOMERS CHOOSE REMEDIANT PAM

Remediant SecureONE is an agentless, vaultless and a cost-effective PAM solution

1 **Dynamic and Agentless Discovery** of all admin access sprawl across **Windows, Linux** and **Mac** systems

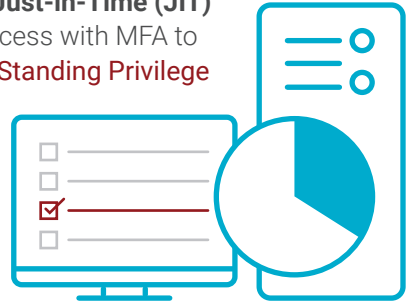

SCAN **10,000 ENDPOINTS** IN APPROXIMATELY 25-30 MINS

25-30 Minutes

2 **One Click Removal (milliseconds/endpoint)** of undetected and unnecessary 24X7 privileged accounts sprawl **reduces attack surface**

3 **Administer Just-in-Time (JIT)** privileged access with MFA to enable **Zero Standing Privilege (ZSP)** and implement **Zero Trust security**

4 **Industry's First EDR Integration** for privileged session recordings: Leverage your investments in **VMware Carbon Black** and **CrowdStrike Falcon** to proactively respond to privileged session-based nefarious incidents
